

Dear Shehu,

I am pleased to know that you received my information and could read PDF format which I use for security reasons: because of the amount of information I sent you is why I set up a special website page for information I send you which we do not want to share with many government agencies.

Since we are partners it is only fitting that we should address each other by our first names and skip the extra key strokes and time wasted on formalities of Mr., Dr. and last names.

When my messages are short and **do not contain** information which I want to be only between us, I will only use attachment. Otherwise I will take additional 2 min and program the message to your website page as word or PDF documents. MS Word docs for short 1 or 2 page messages and PDF format for 3 or more pages.

I think that you need to know that I was a computer systems analyst in the Navy and all I did was analyze data. There is a reason why I IN all my messages I include **very little information** in the text body of my messages so that I do everything possible to keep information confidential, so that our individual status and interest are protected.

Are you aware that **all emails from every source in the world** are scanned for content, recorded, and is subject to be rated and reported to government agencies which may place you on a watch list? Therefore, in all future messages to me; you should be careful what you say in your body of your messages and absolutely do not include any amount of money and do not use full names.

Very few people know about **how the governments are tracking all email**, and even fewer know **how to find the hidden message** below that is attached **to all email messages**. The latest info that I am getting from my computer tech is that the **only safe way** to send confidential info is to **CONVERT to PDF** format and best way is to scan documents to **jpg pic format** which requires human review, because jpg pic format can NOT be analyzed for content by computer.

**Therefore be careful what you say in your body of your messages** and absolutely **do not include any amount of money** and do not **use your full names or include phone number**, and convert information **to PDF** or **jpg pic format is possible** or **send message using word document attached**.

The last 2 messages you sent are **almost clean** and were not rated Appears to be advance fee fraud (Nigerian 419) and therefore no action should have been be reported.

Below is **hidden details** recorded (**Content analysis details:**) of the message you sent to me **Mon, 17 Jun 2013 03:30:43 -0700** and this alerts the government of:

Mr.Allan Frederick Dashner,

This is to confirm receipt of your email, To open a LLC bank account in Indonesia you Company name must be registered in Indonesia or any other countries. So if you have an existing LLC company then you can contact the bank directly but if you don't have any existing registered LLC company then you have to contact an attorney who will assist you to Register the LLC company with Ministry in charge of the registration of companies. Once your account is open we will use the fund to activate your account do not worry about that. To contact the account officer, you can contact him first on his private email edwardeze17@yahoo.com his name is Edward Ezez and to contact an attorney who will register your LLC company if you don't have, contact him at barahmedomani@live.com his name is Barrister Ahmed Omani. The name of the bank is PANIN BANK INDONESIA. If you required any more information please do get back to me. All the above contact I give to you are reliable and trust worthy, Always copy your reply to Mr Hassan Mamooud.

Alhaji Shehu Ladan.

GMD.NNPC.

Amazing what you can find **if you know how to access** the above hidden information.

I hope that all the people, **Ochendo Martins, Hassan, George Martins, and Thomas** are prosecuted because I think they were attempting to **steal the funds** and extort upfront fees from me.

Otherwise, the most important element in this transaction is a bank in Madrid that will accept the cash funds and thereafter a **friendly banker** who will work with me, and of course he should be kindly rewarded for his help.

**Therefore**, I need you to provide me with the **name and address of bank** which is willing to accept the funds.

Plus the name of **friendly bank** officer with whom I will be dealing with.

Instantly upon my gaining control of the funds, I will then need an intelligent local attorney in Madrid to give me quick education concerning reregistering international LLC's so that said LLC's can open a bank account at the bank where the funds are to be deposited in my name. Plus, if you say that we can trust said attorney, when I form the LLC's, I will use his address for service and/or operating address of the LLC's.

It will take 6 to 8 work days for all the legal entities to be formed, and then is when I must travel to set up the accounts in Hong Kong, and Singapore. Trust will automatically have an account set up in South America where I can start sending funds instantly after Attorney gets at least 1 LLC reregistered to open account.

It is not a problem for me to open an account in my name to accept the funds, but the funds **can never be** SWIFT wire transferred using my name as the sender. This will avoid all my personal status being recorded with THE CLEARING HOUSE in New York and thereupon reported to government agencies. Everything that I do is 100% legal and involves the use of **international trust** and **LLC's** to **not only** protect the funds, but also protect **my personal legal status** and **your personal legal status**.

I have already checked my travel information and will leave Houston on Saturday and arrive in Madrid Sunday Morning 5th of August 2013. When I book my travel I will confirm said to you so that it can be passed to Diplomat and if you will confirm what hotel Diplomat is going to book, then I will try to book same hotel. Right now my choices of hotels which are located close to the airport are: 1<sup>st</sup> = **Petit Palace Arturo Soria**, with free Broadband Internet. 2<sup>nd</sup> = **Hilton Madrid Airport**, with surcharge for Broadband Internet.

It would be best if I have direct contact with Diplomat including his email and phone number. My phone number never changes no matter where I am in the world 281-587-1828 if I have access to internet and I have it plugged in.

When will you be able to meet with me in person? We have a lot to talk about and using email and phone will not get your signature on certain forms which I hope the banks will accept if witnessed properly by attorney. Otherwise in the near future you will need to set aside for a few days to travel for meetings with trust officers and banks to get your name documented as a legal signatory on the account and get a debit card issued on the account in your name.

I look forward to receiving your confirmations of our plans which should take place on Monday, 5 August, 2013.

Regards,  
Allan
